

EDIBLES

What do they look like?

- Brownies
- Cookies
- Candies
- Beverages
- Chocolates
- Baked goods
- Gummy bears

The Numbers

For most, it takes **between 20 minutes and 1-2 hours** to feel the effects of the cannabis.

The high typically lasts for hours.

The THC **concentration varies greatly**, even within the same batch of edibles.

Very **easy to over consume** because of the masking flavor of sugar & the time it takes to feel the effects.

Note

The high from edibles is different from other forms of cannabis because it **can have hallucinogenic and other effects** throughout the body.

Children & pets are at high risk for eating these by mistake.

Edibles are sometimes labeled with their ingredients, but **not always clearly**.

What is an Edible?

Edibles are cannabis-infused foods and drinks.

Because it takes so long to feel the effects, people may take more and more until the high kicks in, so it is **very easy to take way too much**.
